How to Assemble the Little Books
How to Print & Assemble the Little Books

To ensure that the pages print correctly, make sure you are opening and printing with Adobe Reader. You can get it for free here: https://get.adobe.com/reader/

1. Print the book(s) front to back on light cardstock. A complete book consists of two pages printed front to back.

2. Stack the pages as they came out of the printer. Then cut across the horizontal center using a paper cutter.

3. Fit the pages together to make a book, and fold. Make sure the page numbers are in the proper order.

4. Open the book back up, and staple twice on the fold with a long-arm stapler.

How to Assemble the Side-Staple Books
How to Print & Assemble the Side-Staple Books

To ensure that the pages print correctly, make sure you are opening and printing with Adobe Reader. You can get it for free here:

PLEASE NOTE: This tutorial assumes that you are printing the books individually and assembling them by hand. If you are using a copier to do most of the work (and stapling), adjust the steps accordingly.

1. Print the book(s) front to back on regular paper, OR print single-sided. Either way works.

2. Cut across the horizontal center of the page. You will now have the pages for two books.

3. Staple across the left side of each book to complete the two books.

4. Enjoy!

*This is what it will look like if you print front to back. Single-sided works too.
